Full-day preschool to be offered at Bridgeway

Beginning with 2005-06 school year, the Pattonville School District will offer a full-day early childhood education program at Bridgeway Elementary School only.

The program, which will run Monday through Friday, is for children who turn 3 years old by Aug. 1, 2005, and up through pre-kindergarten 5 years old.

Resident tuition is currently \$12.95 per day for Pattonville's current half-day program and has not yet been determined for the full-day program. There will be extended-day care in the early morning and after school hours for a nominal additional fee.

Pattonville's early childhood education program typically offers half-day preschool program options both at the Pattonville Learning Center and at most Pattonville elementary schools. The program serves both typically developing students, as well as children with disabilities. The main goal for the program is to help all children develop academically, socially, emotionally and physically in a noncompetitive, positive, nurturing environment where learning is fun.

Enrollment in the new full-day program is very limited and on a first-come, first-serve basis. If you would like your child to be considered, please call Pattonville's early childhood office at (314) 213-8100.
