## **Three board members complete certification training**

Three of Pattonville's newest board members recently completed their Certified Board Member training through the Missouri School Boards Association.

All Missouri school board members are required by state law to earn Essential Board Member Certification by taking 16 hours of training in topics such as Foundations of School Leadership, Policy and Board Governance, Board Planning and Board Relationships.

Michael Stewart and Jeff Fitterling, both elected in April to serve on the board, and Keith Gillming, who just completed his first year on the board, earned the titled of Certified Board Member by completing their coursework in May.
