

# **Comprehensive School Improvement Plan Update 2017-2018**

## **Meeting Minutes**

**Purpose:** The Pattonville School District is working with parents, students, community members, staff and area leaders to update its strategic plan with a series of CSIP (Comprehensive School Improvement Plan) meetings during the 2017-2018 school year. The updated plan will focus on ensuring all students become "success-ready graduates" and planning for and addressing any critical issues that may arise in the areas of facilities, safety, staffing, and finances.

**Committee:** Extracurricular Involvement and Student Excellence

**Committee task:** Evaluate and make recommendations regarding how the district can support existing and future after school programming, so Pattonville students are prepared to participate in MSHSAA high school options.

### **Committee problem statements:**

1. How do we ensure our existing elementary and middle school after-school programs are preparing students for MSHSAA high school options?
2. How do we facilitate club level and/or highly competitive and affordable programming in the Pattonville community?
3.
  - A. What metrics are needed to determine if Pattonville High School has appropriate and comparable MSHSAA coaching/sponsor, program resources, and structures in place?
  - B. How are program playbooks and coaching/sponsor professional development at Pattonville High School impacting practice and results?

**Date of meeting:** November 15, 2017

### **Minutes from meeting:**

- A presentation was given overviewing potential committee recommendations based on committee feedback in September as well as the committee timeline.
- Committee members were organized into three subgroups to review, discuss, evaluate, and adjust potential recommendations to address the problem statements.

### **Work/research to be completed before to next meeting:**

- Committee members are reviewing and continuing to add feedback to the online work board with the goal of finalizing recommendations at the January 16, 2018 meeting. The work completed by the three subgroups can be accessed at the below link:
